FOREWORD

The Schumachers originally came from Liechstenstein, Germany and then went to Baden. John Schumacher (Shumaker) lived in Baden, Germany. He may have been the father of two brothers as a cousin in Galion, Ohio has heard the story and he may have been the father of seven brothers as a cousin in Euclid, Ohio has heard the story.

In connection with the latter theory a spoon was whittled out of wood by one of the seven brothers on the ship and on this spoon was the date of their coming over to America. This spoon was supposedly in the possession of a relative who at one time lived in or near Cardington, Ohio. Bernadine Mac Geren Lyons (Table DC), who lives near Cardington, tried to locate and learn more about the spoon through publicity in the community papers there but to no avail. If anyone knows anything about this spoon, please write to me.

The first theory of two brothers coming over to America in 1742 was first told by a Jonathan Shumaker, an historian, and who lived in Lancaster, Ohio where he is probably buried. Jonathan was a first cousin of Jacob Shumaker (5), father of Henry and Silas Shumaker of Galion, Ohio. According to record, Jonathan told of but two Shumaker brothers coming from the Province of Hessen, Germany and emigrating to the colony of Pennsylvania in 1742, thirty-four years before the Declaration of Independence was signed.

The two or seven brothers were of the second generation. All those whose names are listed in this book are direct descendants of Jonas Shumaker (4) whose father was William Shumaker (3) except those who are related by marriage.

May I say that William Shumaker (3) had a brother David Shumaker (3). David's wife was Susannah Arret. David had a son Jonas who was the father of the late Harley Shumaker of Napoleon, Ohio. Mary Spangler Shumaker was the wife of Harley Shumaker and his brothers and sisters were Ada, Levi, Charles J., Mary L. and Martha M. Although distantly related, the David Shumaker descendants are not included in this treatise. David was a brother of William from whom we are descended. One of the girls listed in this Shumaker History comes from the David Shumaker Line while her husband is in the William Shumaker Line. I would like to see her work out a history of her ancestry.

My great-grandfather Jonas Shumaker (4) was born in West Moreland County, Pennsylvania, east of Pittsburgh. Jonas' wife, Elizabeth Hoenschel (Hoenschel), was of German ancestry, belonging to the class of Adell, a type of nobility in Germany. The Shumakers lived in and near Lancaster, Pennsylvania, Burkes County, before coming to Ohio to live. It is my hope to learn more early information of the Shumakers of Burkes County at a later date.

Jonas (4) visited his relatives once a year in Pennsylvania. The quickest way to go there was to walk, for roads were bad and he had no saddle horse to ride. To go there by wagon was too slow so in midsummer when the days were long, he started walking sixteen hours a day. He was known to have sometimes walked sixty miles in one day. He was a crack shot with a rifle and is known to have shot three coons with one bullet. He was five feet eight or nine inches tall. Jonas (4) was first buried in the Old Union Green Cemetery, Galion, Ohio where the Galion Senior High School now stands and later removed to Fairview Cemetery in Galion. When his body was removed, his skull was found to be intact, every tooth in his head sound.

Jonas (4) was a doctor in Wooster, Ohio and suggested the name of "Heidelberg" for Heidelberg University, Tiffin, Ohio. A certain Christian Jew by the name of Max Stern toured the country doing missionary work in organizing churches. He went to Galion, Ohio where he lived in Jonas' (4) house which was quite commodious, and they became good friends. Max Stern was foremost in Heidelberg's formation. When the plans for the college had been completed and the endowment had been secured, it was ready for naming. At a meeting my great-grandfather, a member of the Board of Trustees, jumped to his feet and suggested the name of Heidelberg which was adopted. This information came from Jacob Shumaker (5) who told it

FOREWORD (Continued)

to his son, Henry Jonas (6). Incidentally Henry Jonas was named after his grandfather Jonas (4) at his grandfather's request.

It was in 1852 that Jonas (4) contributed three hundred dollars to Heidelberg University and thus was granted a scholarship for the relatives forever. Jacob Shumaker (5) was in all probability the first person to use this scholarship. I happen to have also used this Shumaker scholarship when I attended Heidelberg University. This scholarship is in safe keeping today with one of the Shumakers in the Joseph (5) Shumaker Line.

It has been said that Jonas (4) had four or five brothers and that he had a daughter who died in her youth, name unknown, and thus not listed with others of the fifth generation. Another item of interest is that Grover Shumaker in Euclid, Ohio has an old Bible containing some early records which some of you might enjoy seeing. Also in the possession of Mrs. Calvin D. Shumaker of Toledo, Ohio is an old historic book which shows some Shumaker settlements in Ohio. May I call your attention to a most unusual yet meaningful name listed in this History, that of Noble Welcome Hand, son of William E. and Mary A. Hand of Bremen, Indiana. Mary has given a helping hand to this project. Another name with its sweetness is Candy Kay Bevelhymmer, daughter of William L. and Marilyn J. Bevelhymmer.

In the Saturday Evening Post of November 15, 1952 appears an article "What You Don't Know about Your Relatives" by Robert M. Yoder on what Attorney Nolan says about one's relationships. In it he tells how one can determine his relationship to another.

Much of the information in this project has come from the memories of many of you. Clippings, family records and dates on cemetery markers have provided many details. My many trips to see and meet some of you have been most cooperative and pleasant. Your many letters shall always be cherished and also your friendships. I have just taken what all of you have told and written to me and put it all together and here it is. I would like to meet all of you sometime.

I believe that it would be most fitting to dedicate this Shumaker History to Caroline Elizabeth Shumaker Bockelman, Rosena Shumaker Gunn, Henry Jonas Shumaker, and Silas Joseph Shumaker who have so nobly helped with the early data; also to the memory of the late Charles Franklin Bollman and Calvin D. Shumaker who were staunch supporters of this project. All of these are of the sixth generation.

And now when we all look back, we did enjoy working together on this project, didn't we. Some of you worked more than others, but this work, if you call it that, has been a pleasure. To me it has been most pleasant to hear from and to meet many of you. I do want to thank you from the bottom of my heart for helping to make this most noble project possible.

Most Sincerely,

Your Cousin,

Esther Catherine Weiler Nelson

The families listed in this book are the descendants of Jonas Shumaker (1793-1875) who was the great-grandson of John Schumacher of Baden, Germany. This is shown in Tables A and B. The "Outline of Tables" indicates the connection between the families listed in the various tables. A cross reference in each of the tables also denotes this relationship.

In the tables throughout the book the number in parenthesis preceding each name indicates the generation of each person. John Schumacher has been considered of the first generation and Jonas Shumaker and his wife Elizabeth Hoenschel (Hoenschel) Shumaker of the fourth generation.

The children of each couple are listed below and slightly to the right of their parents' names. The names of the children are prefixed by the number of the generation succeeding the one of their parents.

The date of marriage precedes the name of the spouse.

If the information is known, the names of living persons are followed by the date of birth and the names of deceased persons are followed by the dates of birth and death.

The alphabetical lists of names on the last pages provide interesting information concerning our relatives both living and deceased. Each name in this list is followed by a letter or letters and a numeral. The table in which the name may be found is denoted by the letters; the generation of the person is indicated by the numeral.

OUTLINE OF TABLES

A (1)(2)(3) John Schumacher

B (4) Jonas Shumaker
